

rFactor 2 TrackMap v0.9 Plugin

Publicado por The Mendru - 06 Feb 2012 14:38

Nuevo plugin/display para rFactor 2 TracMap 0.9 por FazerBox, es una versión beta pero que esta muy trabajada en la imagen podemos obtener una idea de lo que nos informa en tiempo real este plugin, muy completo.

INSTALLATION

- 1) Locate that contains "rFactor2 launcher.exe";
- 2) Explode Zip file
- 3) Run rFactor2 and enjoy!

HOW TO INSTALL A NEW TRACK MAP

After having installed a new Track in rFactor2, you need to extract relative AIW and GDB files into rFactor2 installation folder>PluginsTrackMapTracks

- 1) Locate InstalledLocations
- 2) Open each MAS file using MAS2.exe utility (see SupportTools).

Once MAS file is loaded, order grid rows by "Type" object. in this way AIW and GDB files will be first in list

- 3) Extract (Right click in selected file) all AIWs and GDBs into PluginsTrackMapTracks
