Hi Guys!

Even it is hard to understand Spain, but we try to learn.

It is important for our Holiday in the Republic of Dominican!

But the main question is, why is the Server saved by a Password.

If you don't want us to drive there, just tell us.

We Austrian know, that it is hard to solve the speech problem,

but if someone is here who can speak English we are on the way

to help.

Maybe you can explaine us the things we don't understand.
