

Re: F1-B - German GP, Nurburgring - Dates, Times

Publicado por Davis Webber - 20 Jul 2011 21:51

Hello,

I am unsure of where to ask this and thought here would be as good a spot as any. What timezone is used in the first post about start times? I am interested in joining and live in EDT, and was just wondering if the start time is suitable for me.

Thanks

Always GMT+2

But this event is only for the drivers of Championship F1RS2011

You can read the article of front if you like inscription.

Else we make races with consumption x2 and race leng 25% All days in server RealSim2.

If you see the right side bar in front of web, countdown is right with your system clock. And stand hours is too GMT+2

I hope see you early in the asphalt.
